

# Victorian Landfill Levy Relief Program Claimant Annual Statement

Organisation Name \_\_\_\_\_

Contact Name \_\_\_\_\_

Statement Period:

FY 2024    FY 2025    FY 2026    FY 2027

Waste Management and Diversion Strategy:

Outline efforts to minimise illegal dumping and inappropriate donations, evaluate their success, and report on waste disposal costs from other sources. Outline strategies for managing non-sellable goods through recycling, repurposing, or responsible disposal methods.

### Innovation, Strategy, and Outcome Assessment:

Outline new initiatives to reduce waste and their impact on operations. Quantify process improvements, organisational relief, and other waste levy benefits.

### Data Use:

Evaluate how data has been used to inform reuse, recycling, and waste reduction activities. Highlight areas for strengthened data collection to optimise outcomes.

### Community Engagement and Sector Analysis:

Summarise retail locations by size and population. Analyse disposal and recovery rates, as well as incidents of illegal dumping and inappropriate donations by Local Government Area. Summarise consultations with the community and stakeholders.

### Resilience and Initiatives:

Identify new initiatives and annual resilience planning particularly concerning illegal dumping. Include case studies to illustrate points and suggest potential efficiencies and further improvements.

## Reflections and Lessons Learned:

Identify opportunities for collaboration between charitable recyclers to enhance disposal/recovery rates. Offer insights for future collaborative efforts and innovative strategies.

Please attach any documents, images or other information to support your organisation's ongoing reuse and recycling activities.
